### SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN'S IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.  
Gentlemen:—I have suffered with pain in my side and back, and great nervousness on my part, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try "Brown's Iron Bitters." I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the king of medicines.  
JOHN K. ALLENBER.

**BROWN'S IRON BITTERS** is composed of Iron in soluble form; Cinchona the great tonic, together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

## COAST CLIPPINGS.

The past year's vintage in Southern California has been the best for twelve years.

J. J. Ayers withdrew from the Los Angeles Express yesterday, having sold his interest.

A cannon ball weighing about ten pounds was dug up in the streets of Los Angeles last week.

H. H. Hass, a merchant at Guerneville, is under arrest, charged with attempting to set on fire his own store.

The fire department of Los Angeles turned out the other night to extinguish the aurora borealis. So says the Times.

The first train of the Oregon Railway and Navigation Company left East Portland on time Tuesday afternoon. Passengers go through with one change to Trout Creek, Montana, 536 miles East of Portland.

## BRIEF MENTION.

It is an off year—a good way off, too.

A Turk goes to church only when he feels like it. Chorus of boys: "Wish we were Turks."

This is the way I long have sought, and mourned because I found it not.—Gos. Butler.

The man who attends only to his own business would hardly fill the bill as a reporter of a live daily.

A man's life must be mighty clean before he can be "bathed in the perpetual sunshine of an eternal fame."

A subscriber asks: "Do circumstances ever justify a man's getting drunk?" Yes, when the circumstances are twins.

Legal adviser (drawing up the old gentleman's will): "Um—seems a pity you should cut off your son with a shilling. But if you're determined—hem!—what about the pictures?" Crusty invalid: "Oh, drat the pictures! Leave 'em to the blind asylum!"—Punch.

A story told of a cool Bostonian when undergoing a savage cross-examination. General Butler had badgered him unmercifully, and finally said with a mixture of solemnity and fierceness: "Can you look me in the eye and say that?" The witness looked at him a moment and asked quietly: "Which eye?"

"Oh, what a fool I am!" yelled Farmer Johnson as he crumpled up the country paper and threw it from him. "Last week I paid up my five years' back subscription to this paper and the result is a big editorial on 'Bountiful Crops and the Return of Prosperity.' Now wheat will go down to fifty cents a bushel!"

The thoroughness with which the Canadian journalist occasionally gathers the news may be inferred from this brief extract from the Brockville Recorder of recent date: "The Governor-General's hair wants shingling. He passed west for Toronto, and we had a chance to see the back of his head only, and his hair is altogether too long."

The newer arithmetic: A human body weighing 160 pounds falls 55 feet per second. How long will it take a baby weighing 13 pounds to fall down a flight of stairs 14 feet high?—James and Henry go fishing and agree to divide. James has two nibbles and a bite from a dog, and Henry gets two duckings and loses a twelve-shilling hat. What is the share of each?—Detroit Free Press.

"Chronic kicker."—Yes, we know this isn't much of a paper, not half as good as one as you could get up. There isn't an editor on earth who could get up as good a newspaper as you could if you wanted to. But then you haven't got time, or you have other business that you got into by mistake instead of being an editor. It's a great blow to the country. Can't you get off and run this paper for a week?—Beaverville Argus.

A CONSTITUTIONAL CONVENTION.

The State Republican and Democratic conventions adopted in their platforms planks favoring the calling of a State Constitutional Convention for the purpose of modifying the organic law of Nevada. It may be well to look into the subject a little and see if the two conventions acted wisely. The Democratic plank reads as follows:

Resolved, That the financial affairs of our State require many important economical changes beyond the power of statutory regulation, and we therefore favor the calling of a Constitutional Convention, for the purpose of making such changes in the organic law of the State as will relieve the people from a large portion of the present unnecessary and burdensome expenses of State and county governments.

The Republicans enunciated the following at the Reno Convention:

Resolved, That in the judgment of this convention the Legislature, when next convened, should make the necessary provisions for a convention to revise the entire constitution of the State; that in providing for such convention well guarded restrictions should be made, defining the number of delegates, their compensation, and fixing the duration of its session; that we believe such a convention is imperatively demanded by the urgent necessities of the times, and among others for the following cogent reasons: First—to change the fundamental law so as to secure as nearly as may be the equal and uniform taxation on all property subjected thereto. Second—to regulate and render equal and just all the rates of passage and freights upon all railroads doing business in this State, to the end that our leading industries may be fostered and not oppressed, built up and not overthrown; and third—to secure the reduction of the expenses of State to the minimum by dispensing with all unnecessary officers and employees, rendering more speedy and economical the collection of public revenue, and the general administration of justice.

It will be seen that the members of the Legislature elect are pledged to vote for holding a Constitutional Convention for the purpose of changing the fundamental law that has governed us since the "Battle Born" was first recognized as a sovereign State. True, there are some things in the organic law that need correcting. When the Constitution was first adopted Nevada promised to become a great State; money was plentiful and our people were enjoying prosperity on every hand. The framers of the great organic law did not look into the future, perhaps, with that deliberation that should have been exercised. They provided for more officers than were actually necessary to govern 50,000 people.

There is no question but what the cost of carrying on our State Government is entirely too high; and that changes in our Constitution are absolutely necessary if we expect to remain in the galaxy of States. But is it necessary to call a Constitutional Convention to remedy the existing wrongs? The holding of a Constitutional Convention means a direct expenditure of at least \$80,000, saying nothing about the time and expense it will cost to frame our statutes to conform to the new law.

In these times it is dangerous to tamper with the organized law of any State. Cannot our Constitution be changed, all that is necessary to answer the requirements, by amendment?

Article XVI, Section 1, of our Constitution reads as follows:

SECTION 1. Any amendment or amendments to this Constitution may be proposed in the Senate or Assembly, and if the same shall be agreed to by a majority of all the members elected to each of the two Houses, such proposed amendment or amendments shall be entered on their respective Journals, with the yeas and nays taken thereon, and referred to the Legislature then next to be chosen, and shall be published for three months next preceding the time of making such choice. And if, in the Legislature next chosen as aforesaid, such proposed amendment or amendments shall be agreed to by a majority of all the members elected to each House, then it shall be the duty of the Legislature to submit such proposed amendment or amendments to the people in such manner and at such time as the Legislature shall prescribe; and

if the people shall approve and ratify such amendment or amendments, by a majority of the electors qualified to vote for members of the Legislature voting thereon, such amendment or amendments shall become a part of the Constitution.

It will be seen that the incoming Legislature can pass such amendments as are deemed necessary. Let them be agreed to by the Legislature next chosen, and submitted to the people for ratification. It will take but about two years and a half to make all the changes required, if it is done in this way. The expense of proceeding in this manner will be comparatively small. On the other hand, if a convention is called the expense will be greater than can be afforded, besides taking the chances of a convention framing a poor instrument that would make our burdens greater than they are now.

Section 2 of Article XVI of our present organic law reads as follows: Sec. 2. If at any time the Legislature, by a vote of two-thirds of the members elected to each House, shall determine that it is necessary to cause a revision of this entire Constitution, they shall recommend to the electors at the next election for members of the Legislature, to vote for or against a convention; and if it shall appear that a majority of the electors voting at such election shall have voted in favor of calling a convention, the Legislature shall, at its next session, provide by law for calling a convention, to be held within six months after the passage of such law; and such convention shall consist of a number of members not less than that of both branches of the Legislature. In determining what is a majority of the electors voting at such election, reference shall be had to the highest number of votes cast at such election for the candidates for any office or on any question.

Under the provisions of that section it will require really as much time to correct the existing trouble as it would by amendment. It would be well for the incoming members of the next session to consider this subject carefully, and not incur unnecessary expense at a time when we can ill afford to indulge in unbecoming to satisfy the political whims of any party.

EDITORIAL NOTES.

Ed. Ricker sent a grossly insulting card to Alf Chantz, when the latter was publishing the Eureka Republican, which caused the trouble between the two men, sending Ricker to an untimely grave and Chantz to the penitentiary for life. Ricker, the Ruby Hill schoolmaster, caused the publication of one of the grossest insults that was ever permitted to enter the columns of any respectable newspaper, calling his victim all the vilest names a low, disordered mind could invent, which culminated in the death of Anderson. Ricker was "examined" and discharged. Oh! Justice, what a mockery!

It is said that goats are the best land cleaners known, and that a herd of 1,000 entirely cleared a piece of brush land, consisting of 500 acres, in three years. So complete was the work that not a vestige of undergrowth was left.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN DISPATCHES.

Boss Roach, the Ship-Builder.  
NEW YORK, Nov. 23.

The Herald says: The man who doubts that John Roach is a real power behind all Congressional committees that have anything to do with our navigation laws has not yet learned much of the true inwardness of things; but it is nevertheless startling to find him openly bullying a committee as he did Tuesday. It was quite natural that he should treat the committee as his own, for although he may be able to control each individual member, his experience with different Congresses justifies him in feeling that the committee as a whole was appointed solely to protect and advance his interests. Nevertheless, when he insisted upon knowing who Captain Coonan was, and what business he had before the committee, we think he made a mistake. Roach will naturally prefer that every man who knows anything that conflicts with Roach's views of American maritime felicity should be either kicked from the door of the committee room or tossed out of the window if he succeeds in smuggling himself in. But unfortunately some trifling concessions must be made to the annoying American principle of equal rights to all. Roach should not allow himself to become angry without a cause, however. He needs only to hold his tongue and temper until the committee makes its report. Then he will probably find that he is still boss of what is left of American shipping.

Funeral of Thurlow Weed.  
NEW YORK, Nov. 23.

At the funeral there will be 10 pallbearers, who have not yet been selected. Private service will be held at 9:30 A. M. Friday, for the family, in the house. Public service in the church adjoining at 10. At 5 P. M. the remains will be taken on the steamer Drew to Albany and buried in Rural Cemetery on Saturday. Telegrams of condolence have been received, among them regrets of Hamilton Fish and W. H. Seward.

NEW YORK, Nov. 23.  
The remains of Thurlow Weed will lie in state at Albany. The pallbearers selected are General James Watson Webb, ex-Governors Fisk and Morgan, A. W. Seward, Charles O'Connor, John H. Van Antwerp, Alfred Van Sandford, John McKoon, Isaac Bell and General James Bowen.

What is He There For?  
WASHINGTON, Nov. 23.

Men who are disposed to give rein to conjecture say that the presence of Fenton here is not accidental; but he has come upon invitation and that at last the administration has determined to take council with Republicans without distinction of factions, and that a new leaf is to be turned over and a new and broader policy adopted and carried out. Fenton will remain until after the opening of the Garfield Monument Fair, and will be present in the capitol at the opening ceremonies.

Fish for Distribution.  
NEW YORK, Nov. 23.

Seth Green requests it to be announced that the New York State Fish Commission has just deposited in the State hatchery five lots of salmon trout spawn. The Commission will take orders until March 1st for the distribution of brook trout, California trout, black bass, rock bass, yellow perch and bullheads. All persons wishing fish for the purpose of stocking public waters are requested to send their application to Mr. Green at Rochester.

The Panama Canal.  
NEW YORK, Nov. 23.

Belmont has been investigating the Nicaragua and Panama canal question to day in the State Department. Senator Miller of California and Kasson of the House, it is understood, intend to call up the Nicaragua canal bill as soon as possible after the opening of the session in December. They will find the Democrats prepared to treat the subject thoroughly and resolutely in the light of the permanent national policy of the Democratic party.

Unlucky Thieves.  
PHILADELPHIA, Nov. 23.

Charles Moore and Bernard O'Neill were arrested last night on a charge of robbing the house of Hugh McNeill yesterday afternoon of bonds and other papers valued at \$15,000. The papers were not recovered. The thieves are from New York. O'Neill has only been out of the penitentiary two months.

Governor Stanford's Filly.  
NEW YORK, Nov. 23.

The Herald says: Governor Stanford's California filly, Hinda Rose, two years old, trotted half a mile over the track of the Gentlemen's Driving Park yesterday afternoon in 1:10 1/4. The track was not very fast, owing to the frost in the morning and sun of the afternoon. She was timed by John Murphy and others and was driven by Marvin.

The Jeannette Inquiry.  
WASHINGTON, Nov. 23.

The time of the Jeannette Board

this morning was mainly occupied in reading a transcript of Melville's testimony yesterday. The examination of Melville will probably be finished this afternoon. Dr. Collins left Washington this morning, much dissatisfied with the treatment received from the Board in refusing to allow him counsel, ruling out nearly all important questions which he submitted, and failing to push his inquiries in the direction he desired. He says he will now go to New York and ventilate the matter through the press, and intimates that he will soon publish damaging affidavits reflecting upon the conduct of the officers in charge of the expedition.

Agitation in Jamaica.  
KINGSTON, Nov. 14.

Native agitation in Jamaica has reached a very serious and critical stage. The white colony has united against the Government, and indignation against every class, creed and color is poured forth in violent speech at public meetings now held in every township in the colony. Lord Kimberly is denounced at public meetings in consequence of peremptory orders he sent the Government to pack the Legislative Council in order to pass a vote for the payment of half the Florence damages and costs by this colony.

## PERSONALS.

John Bugbee of Pyramid is in town.  
L. D. Woods of Pyramid is at the Palace.

L. L. Woodmansee is visiting Tuscarora.

E. H. Matthews of Sierra Valley is in town.

Mark Parish and wife left for San Francisco last night.

John Considine of Virginia is registered at the Arcade.

R. R. Parkinson of the Carson Tribune is in town to day.

It is said that Alf. Chantz will go to Germany in a short time.

John Wolmering has severed his connection with the Arcade.

Senator J. G. Fair came up on the morning train and went on to Virginia.

George Todhunter of Cedarville has been a guest at the Palace for a day or two.

Jos. Morrison of Truckee came down into the valley this morning and is stopping at the Arcade Hotel.

Jacob Prescott, an old-time Renoite, has returned from Montana, where he has been living for several years.

Antone Dragovich, Superintendent of the Roma-Union mine at Pyramid, will leave for home on to-morrow's stage.

W. D. Epperson of Wadsworth was in town last night and left for home this morning. His contract for grading the round-house site is nearly completed.

Peter Pluff, an old resident of Bodie, is on his way home to Canada. He has had an experience such as few men in the world have survived. He was one of the nine men who fell to the bottom of the Tioga shaft in Bodie on a runaway cage, three or four years ago, a distance of several hundred feet. Others were mangled beyond recognition, but he escaped with comparatively few injuries.

## How the Boys Work It.

Once upon a time Senator Fair came up from San Francisco, having a personal suite composed of Harry Rosener, Dick Dey and others, and they all went to breakfast at Chamberlain's, of course. Breakfast over, each one, except the millionaire, nearly broke his neck to get out to the bar to pay the bill. When the Senator asked "How much?" the attendant replied: "All paid, Mr. Fair." In his long drawn tone Uncle Jimmy remarked: "These boys have got lots of money, haven't they?" They compliment the old man by paying a few small traveling bills, and then hit him for a check, to balance things.

## Cattle and Sheep Ranges.

Howell & Sibley, who recently purchased the Westgate ranch on Cow creek, near the northern Nevada line, intend to winter 5,000 head of sheep on the ranch, and will increase the number to 20,000 next Spring. It is stated by some that sheep destroy the range for cattle—in fact, kill the bunch grass entirely where they graze; while those engaged in the sheep business deny the truth of the statement, and assert that there is sufficient room for both, allowing that they do destroy the range for other stock.

## Noisy Youngsters.

There was a swarm of youngsters at the theatre last night, and they made the galleries howl at intervals, as they used to at the Old Bowery in New York "when Kirby died." If they can't be kept still they should be kept out. The Reno "gods of the gallery" are a nuisance to folks who dislike to be disturbed by their hideous hooting and cat-calling.

## Temperance Union Entertainment.

The ladies belonging to the Woman's Christian Temperance Union having completed their building propose to dedicate it to the public by giving an entertainment at the reading rooms on Friday evening, Nov. 24. A cordial invitation to all. Oysters, 25 cents; coffee and cake, 10 cents. By order of Committee. Supper from 5 o'clock till 8.

## Feed for Beef.

Marker Brothers of Big Meadows, near Winnemucca, have sold 1,500 tons of hay on their ranch to W. B. Todhunter, who intends to feed a lot of beef cattle on the meadows this winter. It is said the price paid was \$6 per ton.

## Closed for the Winter.

Marlette & Folsom employ 200 men cutting, hauling and fluming wood. The firm has shut down all work with the exception of cutting, which will employ quite a number of men during the winter.

"Golden Medical Discovery" (trade mark registered) is not only a sovereign remedy for consumption, but also for consumptive night-sweat, bronchitis, coughs, spitting of blood, weak lungs, shortness of breath, and kindred affections of the throat and chest. Sold by druggists.

## DRUNKEN INDIANS.

When They Attempt to Run a Town What Shall Be Done?

Bodie, like Reno, is afflicted with villainous white men who supply Indians with intoxicating liquor. The *Free Press* echoes the wrath of the people in this matter. Something should be done to dispose of the cause of the evil. "The drunken Indian nuisance continues unabated, and the number of whisky-drinking bucks seems to be increasing. The fact that the miscreants who keep these at best depraved creatures in liquor cannot be 'holed' and put to cool in the county jail for a term, or driven from the community, is as mysterious as it is lamentable. There appears to be no secrecy in the matter of their getting whisky from certain individuals. When confined to their own homes and associates drunken Indians are a brutal set and horrible subjects for contemplation. When allowed to run at will through a town where women, unprotected in the absence of husbands at work, and children, are at the mercy of any mad whim which takes possession of them, they are things to be feared. This in the day. At night when they carouse as now through the back streets and around dwellings where not even a watchman is on duty, there is nothing to prevent them, in revenge for some fancied or real wrong or in the mere hellishness of their natures, or even by accident, from touching off the town, and probably sacrificing some life more valuable to the world than a thousand reservations full of such brutes as these lousy loafers. These wild orgies and midnight festivals should be made room for out in the unpopulated foothills, as the town is getting too small for their accommodation. To remove this stain before it causes the town a calamity and an outraged community takes it under advisement and permanently effaces it, is a matter easy of accomplishment, and one which every person who has the well fare of the town in view will aid. This subject is not one to be treated lightly, for it has, by the experience of people elsewhere, been proven of grave importance. An intoxicated white man has less sense than most of the other lower animals; what complications arise in the brain of a savage when fighting whisky gets the top hold had better not be proven by experiment." If some of the white brutes in Reno who furnish Indians with whisky were summarily punished, suddenly and harshly, the lesson might possibly be remembered by them. Soft remonstrances are useless. They want a solid club.

## Wadsworth Notes.

Mrs. Edwin Fowler has returned to her home in Wadsworth, after an eighteen month's visit to the far Eastern States. She enjoyed her visit and is improved in health.

The grading for the side tracks and the foundations for round-house and machine shops are nearing completion.

About 2,000 cattle have been unloaded here and driven to Mason Valley to be wintered.

The cold snap has frozen out the malaria, and Wadsworth can be placed on the roll again as one of the healthiest towns in the State.

Some of our enterprising young men have made an ice pond on the eastern side of town for skating purposes, and it is to be hoped a lively interest will be taken in this pleasant and healthful amusement.

Wadsworth has the champion sleepers. One recently walked out of a second story window, and only waked when he landed on the platform below. The other one did not wake when his room-mate fired his revolver out of the window at some dogs.

## It Will Apply in Reno.

Whose boys are those from 8 to 15 years of age, who seem to have special license to run on the streets at all hours of the day and night, with no better employment than stoning inoffensive Chinamen? asks the *Bodie Free Press*. Have they no parents? A great many people who when a vocalist sings "Where is my Wandering Boy To-night?" but we judge a goodly number don't cry much over the boy. The vigorous use of the rod and club is better than shedding gallons of tears, and uttering columns of prayers.

## A Singular Fact.

It is an axiom with railroad men, that new hands seldom receive avoidable injuries. They appreciate the fact that they have entered upon a dangerous occupation, and are constantly upon their guard. But when the novelty wears off, and a certain species of recklessness, bred of the familiarity with the constantly threatening danger, takes the place of the care they once exercised, the trouble begins, and wounds and death follow. So says an old railroad man of the Central Pacific.

## A Thrifty Beer Jerker.

A beer girl left Eureka recently (this the *Sentinel* learns from a gentleman who was her best friend) with a clean-up of \$1,100. She went there for temporary professional service. She applied \$500 to raising a mortgage on her mother's house in San Francisco and packed the other \$600 off sewed down in her petticoats. Good girl.

## JOTTINGS.

Several car-loads of cattle went west last night.

Chase & Thyes' apple cider is the finest in the world.

Nearly one hundred immigrants passed west last night.

Try Meyer's cigars. They are fragrant and enjoyable.

If you want a woman to do house work read the *GAZETTE's* 50 cent column.

Work boxes at Nasby's. Thermometer at 7, 9, 11, 1 and 8—25, 32, 46, 37, 48.

Four big fat deer were brought to town last night, killed on the line of the N. & O.

Herbert Coffin, the lightning manipulator, is the father of a girl baby, born last night.

Brookins yesterday shipped an upright Baker piano to Miss Josie Barnes, who is teaching music at Susanville.

A gold-quartz sleeve-button has been lost. Leave it at the Wine House and get \$4. See 50-cent column.

Don't forget to go to the White House and see what Abraham Bros. have to show. No charge for admittance.

Some of the tramps who come through Reno refuse to eat chops, because they are so suggestive of the wood pile.

The Mount Potosi mine at Candelaria continues its shipments of ore to the English Mill here at Reno. It is said that the yield is increasing.

If you want a good drink go to Chase & Thyes' and call for apple cider. If you want something stronger tell Dusan to make you a punch.

A perusal of the *GAZETTE's* advertising columns will disclose an unexpected and solid set of business men as the spirit of enterprise ever brought together.

Everett is still ahead in the grocery race. He shows no one to catch up with him. He sells nothing but the best, and his prices are lower than anybody's.

Nasby's holiday goods are going off fast, and he will have to lay in another stock. Drop into the Bazaar and see the curiosities. The show is good, and free to all.

White felt poke bonnets, trimmed with uncut velvet, white feathers and some gilt braid will be worn by young ladies this winter, if they have the money to buy them or can "stand off" the milliner.

The Arcade Hotel was pretty well filled last night. With a good portion of the theatrical troupe and the usual transient guests, Mr. Lemery was at his wits' ends to accommodate his friends—but he did it, and always will, if he has to sleep on the floor himself.

Most of the immigrants now coming west are from the Middle and Western States, a great portion of them being provided with means to make new homes on this coast. The Italian boom has subsided, but during the time it was running several hundred passed west.

## The Milton Nobles Troupe.

Of Milton Nobles and his great play, which will be presented here next Tuesday evening, the *Sacramento Record-Union* says: "Interviews" was presented by the Milton Nobles troupe last evening. It is a keen satire on the American political methods, and an exaggerated sketch of Bohemian life, but nevertheless full of truths about it. It has charming dialogue, with only the apology of a plot. It is from the pen of Mr. Nobles, and proves him to be a keen observer, a man of native talent and possessed of some rare qualities of wit and a most merry sense of humor. His scenes in the editorial rooms of a sensational newspaper, while very broad—very, indeed—had a well-defined vein of truth in them. The troupe is a good one and well balanced, and every member is competent."

## "Lights o' London" Last Night.

The Palmer Dramatic Company had a large and good-natured audience last night. All seemed perfectly willing to be pleased, and manifested gratification upon the slightest pretext. The actors seemed to lose their personal identity in the parts they assumed, and nothing was slighted. As a literary production the drama is disjointed and without any well-linked plot, but it is put upon the stage so that the audience lose sight of this defect in the absorbing incidents which occur now and then, or the rollicking humor which crops out frequently. Perhaps not a dozen persons who witnessed it can describe the play connectedly, but all will confess that it was one of the best entertainments ever given in Reno.

## Growling at the Postmaster.

A growl is frequently heard about the late hour in the morning at which the Postoffice opens for the delivery of the Reno mail. If the growlers could see what a small force has to do, they would not wonder if the office did not open till 10 o'clock. All the up-country mails have to be assorted and dispatched before the Reno mail is touched, and there is but a short time in which to do it.
